PGH COVID-19 Center Frontliners

Magiteque Community

Magiteque Community consists of Magiteque Patients, Advocates, Benefactors and #DrMaggie Practitioners who have been helping in time of crisis, be it manmade or natural disaster. It started during Typhon Yolanda where the International Community funded the #DrMaggie Minerals used and given at the Yolanda Survivors at Villamor Airbase. It helped the Bohol Earthquake, Itogon Landslide, Habagats and Marawi Siege where AFP has awarded Magiteque Certificate of Recognition in helping on PTSD Prevention & Care and Social Healing Initiative. With OPAPP, Magiteque helped in armed conflict areas for Stress & Pain Management & Social Healing using DrMaggie Natural Mineral Solution.

In this COVID-19 Crisis, Magiteque has initiated empowering those at the HomeFront to address the COVID-Symptoms awaiting support from DOH. The COVID-19 Prevention & Care Protocol was developed under the Supervision of PITAHC, Medical & Naturopathic Doctors, Dr. Bernardita Martinez, MD.,ND, & Dr. Mary Jean Netario-Cruz, CHC, ND Humanitarian Entrepreneur President & Founder of Magiteque, Inc.

“FEAR puts the body in stress mode and lowers the immune system. Susceptibility of the body to succumb to COVID-19 infection is at peak when the immune system is weak.” - Dr. Mary Jean Netario-Cruz, ND.

“On top is securing the health of our frontliners who are tagged in the whole province as the strictest group in checking the passage in the boarder gates. A big help to maintain their power and energy is the #DrMaggie (MagnesiumMSM) manufactured by Magiteque, Inc. that effectively boost their health and immune system.”

***- Hon. Mayor Francisco Baladjay, Jr.
Laua-an Antique***

Thus, Laua-an is very thankful to Dr. Mary Jean Netario Cruz, Doctor of Naturopathic Medicine for providing us these solutions. We can say with all candor “Matapang kami sa pagresponde dahil protektado kami ng #DrMaggie”. - Hon. Mayor Francisco Baladjay, Jr.

April 20, 2020

HIS EXCELLENCY RODRIGO ROA DUTERTE
President of the Republic of the Philippines

What remains in my mind and heart being a public servant under your administration is your genuine line “Ang gusto ko walang reklamo ang taumbayan.”

In the midst of COVID19 Pandemic where it seems a quagmire not just vanishing lives and properties, but also a quicksand that might deteriorate our pure intentions to serve our constituents, I never find a single reason to lose hope because you always stand with optimism every time I look up at you. And if our beloved President is working aloud “para walang reklamo ang taumbayan”, I too, remains running in such noble track.

In God’s grace, our town exerted efforts, initiatives and innovations to respond effectively to the call of the national government in securing the safety, security and well-being of our fellows. For the record, our town is still covid-free and people feel the presence of local governance in the time they needed it most.

On top of these is securing the health of our frontliners who are tagged in the whole province as the strictest group in checking the passage in the border gates. A big help to maintain their power and energy is the #DrMaggie (Magnesium MSM) manufactured by Magiteque Inc. that effectively boost their health and immune system.

Thus, Laua-an is very thankful to Dr. Mary Jean Netario Cruz, Doctor of Naturopathic Medicine for providing us these solutions. We can say with all candor “*Matapang kami sa pagresponde dahil protektado kami ng #DrMaggie*”.

May the Lord God continue to guide and bless you, Mr. President because you are what a Chief Executive is all about.

God bless the Philippines.

CAPT. FRANCISCO G. BALADJAY, JR.
Municipal Mayor

COVID-19 TESTIMONIALS

Jose Michael Morron, 36 years old—Sales Manager

I visit many clients everyday Filipino or Foreigner client. One time, I encountered Chinese Nat'l from Hongkong in Laguna and napansin ko lagi syan'g umuubo and I thought simpleng ubo lang. After a week nagkaroon na ako ng fever and short of breath. I went to hospital for a check up and they classified me as PUI. I had fever that measured 38 degree for days, shortness of breath and dry cough even though I am taking the prescribed medicines. My Mom gave me DrMaggie minerals. I took the #DrMgWater per COVID-19 Prevention & Care Instruction and everytime nagkakaron ako ng shortness of breath due to dry cough, I am spraying on my chest and throat. I noticed na maganda ang effect because nawawala ang hirap ko sa pagubo, lumuluwag ang barado kong ilong everytime I sprayed so I took it everyday. After a few days I noticed na nawala na ang fever ko and lumalabas na ang phlegm ko. Gumaan na ang pag hinga ko. After my 14 days home quarantine I went back to my Doctor for a follow-up check up and nagulat sila that I am OK na no other sign of fever and shortness of breath. Because of this experience, I donate to help send #DrMaggie to Medical frontliners for their protection.

Message of gratitude sent to DOJ Reg 6 Probation & Parole Regional Director Charito Zamora 03.26.20

Gd mrning mam! Thank you so much for sending me a bottle of #DrMaggie MSM spray...for the past few days, i had clogged nose, headache, sore throat w/ inflamed tonsils, dry cough, a general feeling of being unwell...OTC meds didn't help. Last night after i got the bottle, per your instruction, i sprayed into my nostrils and throat- felt ko ang hapdi na parang may sugat but nawala din agad. This morning, i sprayed again and there was no hapdi...what amazed me was nawala ang clog and sakit sa lalamunan...AND! tuloy tuloy lumabas sipon- consumed more than half roll of tissue paper to catch it. Now, magaan pakiramdam ko 😊 Thank you mam 🙏

By Dr. Bernardita Martinez, MD, ND

Bernie Martinez

A patient from Las Pinas called yest pm, telling me she has tonsillitis with 39 temp and severe muscle pain. To top it all she is in a panic mode. It was a blessing cuz she still have a few bot of Dr Maggie. So she did whole body mag spray last night, did gargle with dr maggie, and continuous magnesium water therapy. Called her this am, temp is 37, very minimal sore throat, no more muscle pains and isolated herself already.. best of all, not in panic mode anymore but in a prayerful and hopeful mode. Advised her to continue gargle, nose cleaning and water therapy.praise God!!!

Feedback from a Medical Front liner

tama po kayo doc bumalik na appetite ko ngayon kahapon lang ako nag start thank you doc!hulog ka ng langit!at yong pangangati ng lalamunan nawala kaagad ! at yong plem lumalabas sya...

at doc masarap tulog ko! grabe!thank u so much!
